

# Blocca — Privacy Policy (KB Apps)

Last updated: August 2025

This Privacy Policy explains how KB Apps (“we”, “our”, or “us”) handles information for the mobile game “Blocca”.

Blocca was built to be played without an account and without sending personal data to our servers.

## Information we collect

- We do not collect names, email addresses, phone numbers, or precise location.
- Blocca does not include third-party advertising SDKs.
- Blocca does not include analytics SDKs.

## Game data stored on your device

Blocca stores a limited amount of non-personal game data locally on your device, such as:

- High score
- Settings (e.g., theme mode)

This data is saved using your device’s local storage and is not transmitted to us.

## Network communication

Blocca does not connect to external servers for gameplay. If future updates introduce online features (e.g., cloud sync or leaderboards), we will update this policy to describe the data processed and provide appropriate options and disclosures.

## In-App Purchases

Blocca currently does not offer in-app purchases. If we add optional purchases in the future, they will be processed by Apple, and we will not receive payment card details.

## Children’s privacy

Blocca is intended for a general audience and does not knowingly collect personal information from children. If you believe a child has provided personal information to us, please contact us and we will take appropriate action.

## Your choices

You can delete Blocca to remove all locally stored game data. If a reset option is available in-app, you can use it to clear scores or settings.

## Data security

Blocca minimizes data collection and stores only local, non-personal data. If in the future any online features are added, we will update our practices and documentation accordingly.

## Changes to this policy

We may update this Privacy Policy from time to time. Material changes will be posted on our website

and reflected with a new “Last updated” date.
